I love the opportunities that can be found here. It's rare that you find a program that can be as personal and inviting as OSU's while still maintaining such a high standard.

- Jackson Parrish, BFA Acting

A robust and comprehensive program...

The Department of Theatre annually produces theatrical productions in two venues: The Vivia Locke Theatre and Jerry Davis Studio Theatre. Acting, as well as design and technology opportunities, are available to all students starting with their freshman year. The Theatre faculty are working professionals, devoted to mentoring and educating their students, as well as maintaining their scholarly and/or creative work off campus. Under the direction of the professional faculty, students are encouraged to participate in professional internships and conferences, and to pursue summer employment opportunities in theatre as soon as possible.

PROGRAM HIGHLIGHTS

Theatre - focuses on honing skills in acting, stagecraft, and dramatic interpretation. Students delve into the history and theory of theatre, learning about various dramatic forms, playwrights, and theatrical movements, from musicals and live shows to television, film, and motion capture.

Acting - prepares graduates for a career in professional acting by providing them with a strong foundation in both the theoretical and practical aspects of the craft.

Musical Theatre - provides a comprehensive education in the performing arts, combining rigorous training in vocal technique, stage presence, dance, and acting.

Arts Administration - prepares students with the knowledge and skills needed to effectively manage and promote arts organizations, ensuring their sustainability and contributing to the vibrancy of the cultural landscape.
