

College of Arts and Sciences

Biochemistry

Industries

- hospitals and clinical laboratories
- diagnostic companies
- health research institutions
- pharmaceutical companies
- biotechnology firms
- drug research and development
- food and beverage companies
- agricultural research organizations
- government food safety agencies
- nutrition companies
- environmental consultancies
- government environmental agencies
- conservation organizations
- genomics research companies
- clinical genetics lab
- biotechnology firms
- forensic laboratories
- chemical manufacturing companies
- materials science firms
- industrial biotechnology companies
- scientific publishing houses
- regulatory agencies

Job Titles

- clinical biochemist
- pharmacologist
- biomedical scientist
- research scientist
- molecular biologist
- biochemist
- pharmaceutical scientist
- biotechnologist
- regulatory affair specialist
- food scientist
- agricultural biochemist
- nutritional biochemist
- environmental scientist
- toxicologist
- bioremediation specialist
- science writer
- biochemistry instructor
- science outreach coordinator
- geneticist
- genomics technician
- bioinformatician
- forensic scientist
- DNA analyst
- toxicology analyst

Professional Organizations

- American Society for Biochemistry and Molecular Biology
- Biochemical Society
- Division of Biochemistry and Chemical Biology
- Federation of American Societies for Experimental Biology (FASEB)
- Protein Society
- Society for Glycobiology (SFG)
- American Association for Clinical Chemistry (AACC)
