To find the proper Sharp drivers (Mac)
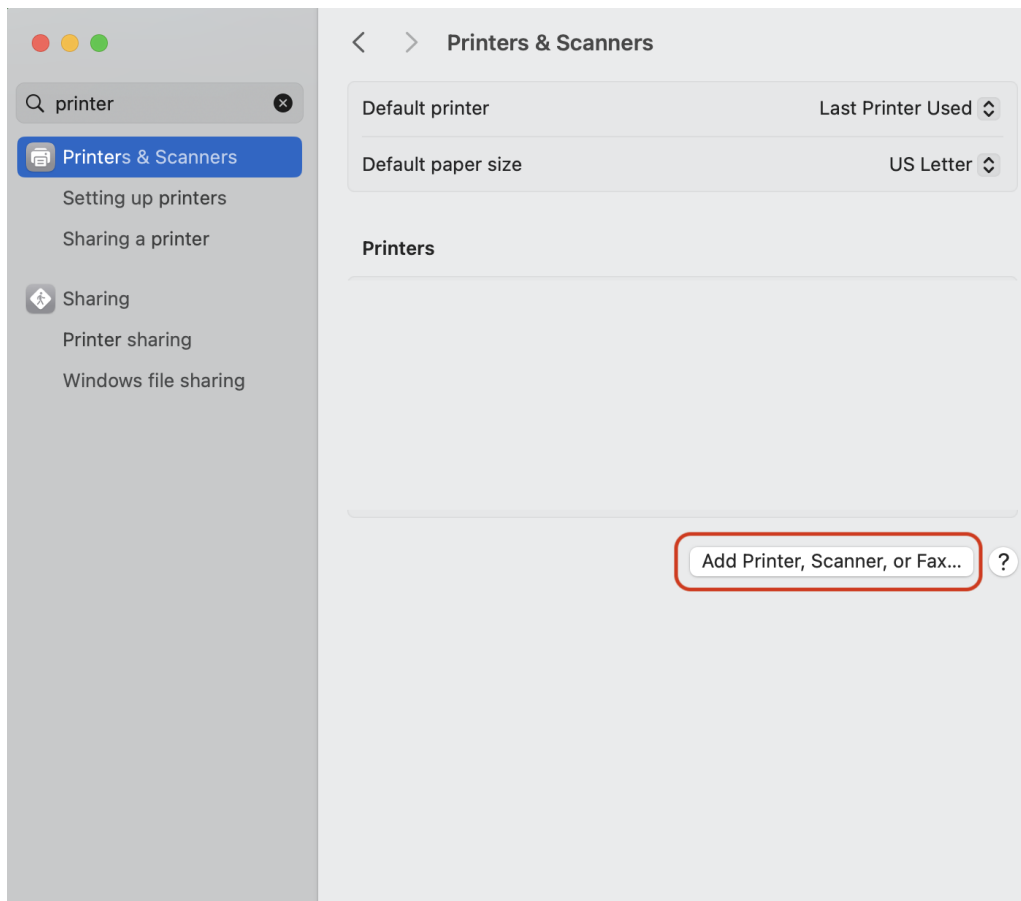

1) Go to www.Sharpusa.com to download the driver

After installing the driver:

2) Go to **Printers & Scanners**

3) Click at "**Add Printer, Scanner, or Fax**"

4) Click on the "**IP**" option above, type the hostname in "**Address**", and from the drop-down tab for "**Protocol**", choose "**Line Printer Deamon – LPD**", then click "**Add**". (As shown below, it will automatically detect the driver in "**Use**".)

Add Printer

Default   IP   Windows

Address: | hostname_example
Valid and complete host name or address.

Protocol | Line Printer Daemon – LPD

Queue: |
Leave blank for default queue.

Name: | hostname_example

Location: |

Use: | SHARP MX-6071 PPD
The selected printer software isn't from the manufacturer and may not let you use all the features of your printer.
