Q: Am I eligible to apply for a graduate degree in Statistics from OSU?
A: Specific degree requirements for each degree are listed in the program details links at Graduate Program | Oklahoma State University (okstate.edu). To summarize
  o A1 (Applied Statistics MS). For the applied Statistics MS, it is necessary to have an undergraduate degree, not necessarily in mathematics or statistics, to begin a program of study towards the degree. Students should have coursework that, at a minimum, is equivalent to the following courses at Oklahoma State University (see http://catalog.okstate.edu/courses/math/ and http://catalog.okstate.edu/courses/stat/ for descriptions):
    MATH 2144 Calculus I
    MATH 2153 Calculus II
    MATH 2563 Calculus III
    STAT 4013 Statistical Methods 1

    Students can be admitted provisionally with some deficiencies, but are encouraged to remedy Math deficiencies prior to the first semester in the program. Some Statistics courses can be taken as a non-degree seeking student while remediying math deficiencies. See Non-Degree Seeking Students | Oklahoma State University (okstate.edu)
  o A2 (Statistics MS). For the Statistics MS, students must also have the above courses plus an additional course in linear algebra. This is Math 3013 Linear Algebra at OSU. Students can be admitted with some deficiencies but are encouraged to remedy Math deficiencies prior to the first semester of study.
  o A3: (Statistics PhD). For the PhD in Statistics, students must have all of the above courses plus a senior or graduate level mathematical analysis course that is equivalent to MATH 4023 (Math 5073) Introduction to Analysis at OSU. Students with a bachelors degree can apply directly to the PhD program, but are encouraged to apply to the Statistics MS program first especially if they do not have the MATH prerequisites.

Q: What does it cost?
A: The exact cost of your degree depends on a variety of factors. See the tuition calculator at https://bursar.okstate.edu/tuition-estimate for a more personalized estimated. Some assistantships and fellowships are also available for MS and PhD students.

Q: Am I eligible for an assistantship?
A: Some assistantships are available for MS and PhD Statistics students each semester and are awarded on a competitive basis. Some supplemental fellowships are available for outstanding applicants as well. Students in the Applied Statistics MS program are generally not eligible for assistantships. See Graduate Program | Oklahoma State University (okstate.edu)

Q: How do I apply?
A: Just click on apply now at https://gradcollege.okstate.edu/apply/

Q: What application materials are required?
• A: The general GRE, two letters of reference, transcripts, and a resume/CV are required for all applicants. TOEFL or IELTS scores are also required for international applicants unless English is the official language. See https://gradcollege.okstate.edu/prospective-students/international-students/english-proficiency.html. Don’t forget to fill out the supplemental form (which serves as your personal statement of interest) when applying.

• Q: What test scores are required?
  o A1: Please understand that applications are evaluated as a whole, but students scoring below 10th percentile on the verbal section or the 50th percentile on the quantitative section of the GRE are rarely admitted.
  o A2: See https://gradcollege.okstate.edu/prospective-students/english-proficiency.html for TOEFL or IELTS admission requirements. International applicants with a degree from the US must still submit TOEFL, IELTS scores, or some other proof of English competency for full assistantship consideration.

• Q: When do I apply?
  • A: Most students begin in Fall semesters, but you can apply for admission in any semester. Typically assistantships are awarded annually starting in Fall semesters as well. For full assistantship consideration, MS and PhD students applying for the Fall semester must have their application complete by Feb. 15. Application deadlines for admission for each semester are below.

• Q: Is the MS in Applied Statistics degree completely online?
  • A: Yes. Course material, such as lectures and notes and/or videos, is typically distributed online through http://canvas.okstate.edu. Exams are administered through an online remote proctoring services such as https://examity.com/ or in person at a university testing center near you. See https://cas.okstate.edu/outreach/online-learning.

• Q: Where can I find more information?
  • A: Check out the Graduate Program website Graduate Program | Oklahoma State University (okstate.edu), or request more information here https://grad.okstate.edu/register/information or contact the graduate coordinator.
