SIGNIFICANCE OF THE DRILLING INDUSTRY
The major increase in our economic output over the past 100 years is due to wells providing energy from the hydrocarbon industry.

44% of Americans rely on water provided by the groundwater industry.

Clean water increases life expectancy by 20+ years.

ISSUE AT HAND
The national geoscience workforce faces a 135,000 person shortfall by 2022.*

* Shortfall is due to an aging workforce combined with an increased demand for geoscientists. This estimate was made prior to the global pandemic of COVID-19.

INTRODUCING DRILLING BASICS ONLINE
This fully online training program is designed to address the critical shortage of qualified drilling professionals.

The online platform has unlimited capacity.

Only 40 hours of coursework Completion of Drilling Basics Online could lead to certifications or even college credit.

High-quality curriculum created by OSU professors and geoscience professionals with 25+ years of experience.

The platform scales up as demand grows!
