Communication Sciences and Disorders

MAJORS

Communication Sciences and Disorders, BS

“The most exciting part is knowing that I am helping others and it’s going to be beneficial for someone else for the rest of their life.”

- Becca Walters, CDIS Major

Communications Sciences and Disorders provides an in-depth study of Normal Speech, Language, Hearing Processes and Disorders of Communication. These topics are studied to prepare students to enter a graduate program. As a CDIS major, you will build the foundation and pre-professional background to pursue a career in speech-language pathology and/or audiology.

PROGRAM HIGHLIGHTS

- Observe therapy sessions as a junior and gain clinical experience as a senior
- Gain research experience in the Phon Farm, Motor Speech Lab, Sociophonetics Lab and the Language Learning Lab
- Take courses in American Sign Language, manually coded English and finger spelling
